OTHER ELECTIONS.

Hewitt Elected Mayor of New York.

MODEST MAJORITY OF TEXAS.

Democratic Congressional Gains in Every Eastern and Southern State.

[*Special to the Herald by the Associated Press.*]

NEW YORK, November 2, 11 A. M.—The weather to-day is clear. Magnificent weather is reported from all parts of the State In this city a large vote is being polled and the excitement around the voting places is as great as in 1884. It is conceded that in many sections of the city the George vote will be large, but in other sections this will be offset by other votes.

At the Central Labor Union Headquarters to-day there was great activity. From an early hour in the morning the managers spoke confidently of the George ticket. From an early hour Henry George, Rev. Dr. McGlinn, Rev. Dr. Naramer and T. V. Powderly drove about to the polls in a carriage. At Tammany Hall it was said that everything looked well for the entire Democratic ticket. At Roosevelt's headquarters, in the Fifth Avenue Hotel, Elihu Root, Chairman of the Republican County Committee, said Roosevelt was receiving the hearty support of his party all through the city. George is polling a heavy vote.

The Sun says: "Betting in the Hoffman House last night was $1000 to $300 on Hewitt, $200 to $150 that Roosevelt beats George, and even money on various figures from 80,000 to 96,000 for Hewitt. The estimates of a dozen politicians of all parties and tendencies, averaged, are as follows: Total vote, 218,000; Roosevelt's vote, 59,500; Henry George, 62,000. This, with a Prohibition vote of 2,600, would leave Hewitt 94,000 votes."

1:02 P. M.—There is now but little doubt of Hewitt's election as mayor of New York by a large majority. Theo. Roosevelt will be third in the list. In 700 city districts Roosevelt has 53,955, Hewitt 78,308, George 66,668, Wardwell 532. The Republicans have gained three Congressmen in the State, up to this hour.

510 districts give Roosevelt 39,003, Hewitt 53,607, George 39,327.

KINGS COUNTY.

BROOKLYN, November 2.—Bliss, Democrat, Mahoney, Democrat, White, Republican, and Campbell, Democrat, are elected to Congress from Kings county.

Seventy-five election districts outside of New York and Kings county give Peckham, Democrat, for Court of Appeals, 9,325; Daniels, Republican, 2,253. Same districts last year gave Hill, 11,527; Davenport 14 695.

NEW YORK, November 2.—105 districts outside of Kings county and New York, give Peckham 12,900, Daniels 17,712. The same districts last year gave Hill 15,7[illegible]7, Davenport 21,612.

[illegible]wo hundred of eight hundred and twelve [illegible]ion districts give Roosevelt 14 309, Hew[illegible] [illegible]746, George 13,036.

GOOD FOR COX.

[illegible] YORK, November 2.—In the Ninth [illegible]ressional district, where S. S. Cox and [illegible] P. Wagnor are running for Congress, [illegible]ceded that Cox is more than holding his own.

[illegible]ca—Jas. S. Sherman, Republican, is [illegible]ted to Congress, defeating Spriggs, Democratic, by one thousand or more. Davis, [illegible]publican is elected to the Assembly from [illegible] Third District.

[illegible] New York—The returns are not all in but George's defeat is looked upon as certain. It is estimated that Hewitt will have about 92,000 votes, Roosevelt about 65,000, and George about 63,000. Hewitt's plurality will be about 10,000.

NEW YORK, November 2—In the First Congressional district, Perry Belmont, Democrat, is re-elected.

NEW YORK, November 2.—801 districts out of 812 give Roosevelt 59,621; Hewitt 89,407; George 66,885.

IN OHIO.

CINCINNATI, November 2.—Ohio returns will be compared with Governor Foraker's vote of 1885, when he had a plurality of 17,457. There are now 21[illegible]7 voting places in the state. The total vote of 1885 was 731,195; prohibition vote, 28,081.

Sixty-seven precincts show a net Republican gain of 1659. The prohibition vote is 459.

CINCINNATI, Ohio, November 2.—Two hundred and seven precincts in Ohio show a net Republican gain of 3171. The Prohibition vote is 14,821. Eighteen precincts of Cleveland give a Republican majority of 272

TOLEDO, November 2.—The Democrats concede the election of Romelsover Hurd, Democratic. In Ohio 505 precincts show a net Republican gain of 2724.

IN VIRGINIA.

RICHMOND, November 2.—The weather is clear and very pleasant. Voting at all the precincts in the city is steady. More than one-half the city vote was polled before noon. Everthing is moving quietly. Reports from other points in the state point to the same conditions. The vote in this city is Wise, Democrat, 7447; Wadell, Republican, 5340; Democratic gain 267.

NORFOLK, Va., November 2.—Parks, Democrat, carries Norfolk City 679 majority over Bowden, Republican. A Democratic loss.

LYNCHBURG, Va., November 2.—This city gave S. A. Hopkins, labor candidate, five hundred majority. There are no definite particulars from other points.

RICHMOND, November 2.—The vote in this is: George D Wise, Democrat, 7417; Edmund Wadell, 5340. Wise's majority, 2017; a Democratic gain of 267 over the last Congressional vote with which comparisons, for elections are made. In Manchester Wise has a majority of 242, a Democratic loss of 41. But few returns have yet been received from counties in the Third District.

STAUNTON, November 2.—Yost, Republican, has a majority of 108 in Staunton and three of the adjoining precincts. A Republican gain of 214. Comparisons are made with the vote of 1884, when the majority of Tucker, Democrat, was 1187 in the district over Yost, Republican. Staunton and five precincts of Augusta give Yost, Republican, 19 majority. A Republican gain of 353.

IN KANSAS.

TOPEKA, November 2.—The day has been fine and a large vote has been polled. There seems to have been much scratching throughout the State. It is not probable that any definite results will be known until late to-night, and quite likely not until to-morrow.

MASSACHUSETTS.

BOSTON, November 2.—76 towns give Ames 15,948; Andrews, 12,776.

108 towns give Ames, 23,684; Andrews, 18,746.

154 cities and towns, with Lowell and Boston, give Ames, 65,056; Andrews. 66,158.

BOSTON, November 2.—One hundred and fifty-four cities give for Governor: Ames, (Rep.) 65,056; Andrews, (Dem.) 66,158.

The total vote of this city gives Andrews, Democrat, 26,709; Ames, Republican, 18,323.

Boston—The vote for Governor is very close. The indications favor Ames, Republican. The Boston Traveler claims his election by 5000 majority.

IN TENNESSEE.

CHATTANOOGA, November 2.—The weather is hazy, with prospects of a full vote being polled. Party tickets are generally being voted.

MEMPHIS, November 2.—The weather is clear and the election is passing off quietly, with indications that a full average vote will be polled.

NASHVILLE, November 2.—Returns up to 11 P. M. show Democratic gains all over the State, though a light vote has been polled. Bob Taylor, Democrat, for Governor, is elected by between 20,000 and 25,000 majority. The Democrats gain one Congressman in the Tenth District. All of the former Democratic Districts return Democrats with slightly increased majorities.

NASHVILLE, November 2.—At this hour sufficient returns are in to insure the election of the following Congressmen. The Democrats gain one in the State and reduce Houck's majority nearly 4000: First district—Roderick, Dem., Butler, Rep. Second district—L. C. Houck, Rep. Third—J. R. Neal, Dem. Fourth—Benton McMillin, Dem Fifth—James B. Richardson, Dem. Sixth—J. E. Washing, Dem. Seventh—W. C. Whitthorne, Dem. Eighth—B. A. Enlac, Dem. Ninth—P. T. Glass, Dem. Tenth—James Phelan, Dem.

WEST VIRGINIA.

CHARLESTON, November 2—The election for Congressman, State Senators and Representatives came off to-day. The vote was large and the fight strong. From meager returns C. P. Snyder, Democrat, will defeat Judge Brown (fusionist). The vote for State Senator will be very close, but it is believed that Chilton, Democrat, will be elected by a small majority in this district.

IN KENTUCKY.

LOUISVILLE, November 2.—Returns point to the following Congressional result: In the First District, W. J. Clone, Democrat; Second, Polk LaFoon, Democrat; Third, doubtful, indicating the election of John S. Rhea, Democrat; Fourth, A. B. Montgomery, Democrat; Fifth, Louisville District, very close between Caruth, Democrat, and Willison, Republican. The majority in either case will not be over 200. In the Sixth and Seventh John G. Carlisle, Democrat and W. C. P. Breckenridge, Democrat; Eighth, J. B. McCreary, Democrat; Ninth, close.

IN ILLINOIS.

CHICAGO, November 2.—Indications at 11 o'clock to-night are that the Republican ticket has a majority in both city and outlaying country towns embraced in Cook county, and is elected. The Republicans re-elect Adams in the 1st Congressional district, elect Mason in the 3d district and re-elect Dunham in the 4th. Lawler, Democrat, is re-elected in the 2d district

CHICAGO, November 2.—Indications at 11 o'clock to-night are that the Republican ticket has a majority in both the city and outlying country towns. In Cook county it is elected with the exception of three Republican judges. The Republicans elect three judges and the Democrats three judges. The Republicans re-elect Adams in the First Congressional district, Warren in the Third and Dunham in the Fourth. Lawler, Democrat, is re-elected in the Second district.

The Republican majority in Chicago for State Treasurer is estimated at midnight at 9000, and the Republicans claim a majority in the State for Treasurer of from 20,000 to 25,000. Only scattering returns have been received from the State Senatorial and Legislative Districts. The Socialists claim to have elected three members of the Legislature from Chicago. The returns at 1 A. M. indicate that the United Labor party has elected four members of the State Legislature from this county, L. P. Dwyer, Richard M. Burke, C. G. Dixon and George Roherback. This the United Labor people claim will give them the balance of power in the Legislature.

OLD INDIANA.

INDIANAPOLIS, November 2.—Twenty precincts of Indiana show a Republican gain of 127.

INDIANOPOLIS, November 2.—Twenty precincts show a Republican loss of 107, and a Democratic loss of 234; net Republican gain of 127. The weather throughout the State was very fine, and it is reported that the vote polled was very full. No returns have been received here yet, but a telegraph message from Fort Wayne, claims the election of White, Republican for Congress, in the 12th district.

LIGHT VOTE IN DENVER.

DENVER, November 2.—Up to 10 P. M. no returns have been received from to-day's election. The Republican State Committee claim the State by 3000, while the Democrats say they will have it by 2000. There was a light vote polled in Denver—1500 less than in 1884.

FAIR DEFEATED

VIRGINIA, Nev., November 2.—Returns are coming slowly, but enough is known to warrant the statement that the entire Republican state ticket is elected, including the legislative ticket. This gives the Republicans the next U. S. Senator to succeed Senator James G. Fair.

VIRGINIA CITY, November 2.—Ten precincts in Nevada give Stecenson, Rep., for Governor, 567; Adams, Dem., 453. Woodburn, Rep., for Congress, 453; McMillan, Dem., 347.

SOUTH CAROLINA.

CHARLESTON, November 2.—Reports from all parts of the State show a quiet election and a very light vote. There is no opposition to the Democratic State ticket, or the Democratic candidates for Congress, except in the Seventh District.

NEW HAMPSHIRE.

CONCORD, N. H. November 2.—Forty towns give Sawyer, Republican, 3,656; Cogswell, Democrat, 3,743; Wentworth, Prohibitionist, 189; Republican net gain, 34.

Returns from nearly one third of the towns in the State show a Republican loss on the popular vote of about 200 as compared with the vote of 1884. This does not include the cities and several of the larger towns in which Republican losses were expected. The indications are that there is no choice for Governor by the people, that McKinney, Democrat, is elected to Congress in the First District, and Gallenger, Republican, in the Second, and that the Republicans have carried the Legislature.

THE WISCONSIN ELECTIONS.

CHICAGO, November 2.—Thirty-four Wisconsin towns and cities show a net Republican gain over two years ago of 391. Total Prohibition vote, 376. Smith, Labor candidate for Congress is elected from the Fourth District.

MILWAUKEE, November 2.—The Congressional delegation will be, in the first district, L. B. Caswell, Republican; second, Richard Guether, Republican, a Republican gain; third, L. M. Lafalette, Republican, fourth; Henry Smith; a Republican loss; fifth, Thomas Hudd, Democrat; sixth, C. B Clark, Republican; Seventh, O. B. Thomas, Republican; eighth, W. T. Price, Republican; ninth, Isaac Stephenson, Republican.

IN MISSOURI.

CHICAGO, November 2.—A special dispatch from Kansas City says that the returns so far as received from the Fifth District, now represented by Warner, Republican, indicate it has gone for Philips, Democrat, and that the Democrats have carried Kansas City.

GLORIOUS TEXAS.

GALVESTON, November 2.—The elections in Texas to-day were for Governor, Lieutenant-Governor, Attorney General, Comptroller, Treasurer, Land Commissioner, Superintendent of Public Instruction and eleven Congressmen. The Democratic State ticket has been elected by a large majority. The returns indicate over one hundred thousand majority for Governor Ross.

IN NEBRASKA.

OMAHA, November 2.—The Republican State ticket is elected by over 25,000 majority. Congressman James Laird, in the 2d district, and G. W. E. Dorsey, in the 3d district, are re-elected. Church Howe, Republican candidate for Congress, in the 1st district, is probably defeated by John A. McShane, of Omaha, the Democratic nominee.

IN PENNSYLVANIA.

Philadelphia, November 2.—The weather here to-day is all that could be desired. The same report comes from all parts of the State, and with the beautiful clear sky and warm sunshine a very heavy vote is being polled. Figures on the State ticket come slowly but show an invariable plurality for Beaver, Republican, for Governor. His plurality in the city will not fall below 25,000. The other candidates on the State ticket are well up with the head. Brigham, Republican is elected to Congress from the First District; O'Neil, Republican in the Second; Randall, Democrat, in the Third; Kelly, Democrat, in the Fourth; Hamer, Republican in the Fifth; Ermentrout, Democrat in the Eighth; Heistand, Republican, in the Ninth; Sowden, Democrat, in the Tenth; Buckalew, Democrat in the Eleventh; Bound, Republican, in the Fourteenth; Marsh, Democrat, in the Nineteenth; Dalzell, Republican, in the Twenty-Second; and Bayne, Republican, in the Twenty Third.

IN NEW JERSEY.

TRENTON, November 2.—Indications are that the Republicans will retain control of both branches of the Legislature. Majority of Robt. S. Green, Democratic candidate for Governor, is estimated at from 3000 to 5000.

New York Congressmen.

NEW YORK, November 2.—The Congressional delegation of New York State is probably as follows: First District, Perry Belmont, Democrat; Second, Felix Campbell, Democrat; Third, S. V. White, Republican; Fourth, P. P. Mahoney, Democrat; Fifth, A. M. Bliss, Democrat; Sixth, A. J. Cummings, Democrat; Seventh, Lloyd Bryce, Democrat; Eighth, T. J. Campbell, Democrat; Ninth, S. S. Cox, Democrat; Tenth, F. B. Spinola, Democrat; Eleventh, T. A. Merriman, Democrat; Twelfth, W. H. Cockran, Democrat; Thirteenth, A. P. Fitch, Republican; Fourteenth, W. G. Stahlnecker, Democrat; Fifteenth, Henry Bacon, Democrat; Sixteenth, J. H. Ketchum, Republican; Seventeenth, S. F. Hopkins, Republican; Eighteenth, H. G. Burleigh, Republican; Nineteenth, N. Kane, Democrat, gain; Twentieth, George West, Republican; Twenty-first, John H. Moffatt, Republican; Twenty-second, A. X. Parker, Republican; Twenty-third, J. Sherman, Republican, gain; Twenty-fourth, David Wilber, Republican, gain; Twenty fifth, Frank Hiscock, Republican; Twenty-sixth, Milton Delan, Republican; Twenty-Seventh, N. M. Nutting, Republican; Twenty-Eighth, F. R. Flood, Republican gain; Twenty-Ninth, Ira Devenport, Republican; Thirtieth, C. S. Baker, Republican; Thirty First, J. G. Sawyer, Republican; Thirty-Second, J. M. Farquahar, Republican; Thirty-Third, J. B. Kreber, Republican.

The Buffalo Vote.

BUFFALO, November 2—Thirty-five districts in this city show a Republican gain of 1,239.

THE STATE.

Things Look Favorable for the Democrats.

A VERY SLOW COUNT.

No Definite Indication as to the Final Result—The Figures as Given.

[*Special to the Herald by the Associated Press.*]

SAN FRANCISCO, November 2.—The weather is clear and cool. The elections are proceeding quietly, and a heavy vote is being polled. The American ticket is cutting considerable of a figure, and is drawing votes from both sides. There are seven State tickets and twelve municipal tickets in the field in this city. This causes very heavy scratching, and as a consequence the count of the vote after the polls are closed will be very slow.

The interest in the election is so great in this city that it is expected the full registered vote will be polled less those who happen to be out of the city or are prevented voting by sickness. At 1:0 o'clock 32,000 votes had been polled, representing nearly three-fourths of the total registered vote. The American vote up to 1 P. M. had, on close estimates, polled 7000 votes, and their total vote will, at this rate, reach 8000, or nearly one-fifth of the total vote The O'Donnell vote was also polling its full strength. The result of this is to leave the two great parties on an even footing. It has been observed that nearly every voter of the American ticket was a young man. A fact worthy of notice is that notwithstanding the deep interest shown by all persons in the elections, the streets are as quiet as an ordinary holiday, and the fine weather prompted many to vote early and then go off into the suburbs with their families for a quiet time.

2:45 P. M.—At noon to-day nearly half of the entire number of those who were registered had cast their votes. At every poll ticket peddlers representing nearly every ticket that is in the field are busy at work. The excitement, though subdued, is intense, and the interest in the result appears to be equally as great, if not greater, than was evinced during the last Presidential election Quiet prevails everywhere. No trouble of any kind has been reported up to this hour. There are no indications yet ascertainable as to how the vote is going. The streets generally present a holiday appearance.

The greatest interest and strongest fight here is centered on the Legislative ticket. The registration is not quite as large as in 1884, but the proportion of voters to the number of those registed is as great as in 1884.

About half a dozen arrests for illegal voting have been made.

The Wigginton vote is proving to be lighter than first indicated, and O'Donnell is showing increased strength. In the southern part of the city it is claimed that he is running ahead of all other candidates and in nearly all districts he is leading Wigginton. The O'Donnell vote is mostly drawn from Bartlett. In the Twenty-ninth district Swift is reported to be running well, while O'Donnell's vote is cutting largely into the Democratic vote.

In the Thirty-eighth district the American ticket is leading in some of the precints and is running well in nearly all. In that portion of this district lying south of Market street O'Donnell is playing a prominent part. In the Thirty-fifth and Thirty-sixth districts O'Donnell and Wigginton are said to be polling a heavy vote.

Thirteen precincts give Swift 485, Bartlett 401, Wigginton 68, O'Donnell 31, Russell 11, Jaynes.

Partial returns from nine counties give Swift 1102, Bartlett 961.

Thirty-five precincts give Swift, 1215, Bartlett 1067, Wigginton 99, O'Donnell 50, Russell 43.

AT THE NEEDLES.

San Jose—The total vote in this city was 2,894, being a gain of 96 over the last Presidential election. The count in the several wards has been in progress but a little while with Swift in the lead. It is reported that the Almaden mine vote went for Swift but in favor of Foote for Railroad Commissioner.

Bartlett gets a majority of one in Alviso in a total of 63.

TULARE, November 2.—Six hundred and seventy-five votes were cast, an increase of 222 over two years ago. Swift and Bartlett are even. It is thought that Wigginton has drawn much from Swift.

HOLLISTER, November 2.—The two precincts of Hollister polled 691 votes, 97 more than two years ago. News from the outside precincts indicate an unusually large vote. The Prohibition vote is larger than expected. Scratching was freely indulged in The count has not yet commenced.

HOLLISTER, November 2.—At this hour, 8 P. M., the vote so far as counted stands: Swift 36, Bartlett 34, Russell 22; Joint Senator: T. J. Field 43, Brad Sargent 34. Assembly: Thos. Flint, Jr. 37, J. H. Matthews 35, Geo. T. Elliott 21.

HOLLISTER, November 2.—The total San Benito county vote gives Bartlett eighty votes over Swift.

GOOD FOR RIVERSIDE.

RIVERSIDE, November 2.—The vote polled here is the most thorough scratched of any election in the history of this county. At this time, 7:30 P. M., only about fifteen tickets have been counted. Swift will not run up to his ticket owing to the American and Prohibition element. It is impossible at this writing to make anything like an intelligent estimate of his strength, but his majority will not exceed 150, while it ought to be 250.

REDWOOD CITY, Cal., November 2.—Midnight.—Bartlett, 43; Swift, 57; Wiggington, 6; O'Donnell, 12 Almost impossible to secure correct returns, as the clerks have compelled to count twice to satisfy the judges, and rectify the errors in the tally sheet.

A SLOW COUNT.

SAN FRANCISCO, November 2.—Owing to the immense number of municipal tickets in the field, the count in this city is progressing very slowly, not more than three votes in four being counted. Up to midnight only 728 votes from eighty-eight precincts had been canvassed, with the following result: Swift, 256; Bartlett, 245; O'Donnell, 134; Wigginton, 37; Russell, 29; Cox, 25. For Mayor, Doble, 296; Pond, 377; Hinton, 56.

YREKA, Cal., November 2.—Returns come in slow. The Democratic majority will be less than two years ago for the State ticket and the rest of the Republican county ticket will probably be elected. Henley gives a small Democratic majority on the State ticket, but a good Republican majority for most of the county ticket. Humbug two majority for Bartlett; Hawkinsville five for Bartlett. The Yreka vote partially counted shows a reduced Democratic majority with most of the Republican county ticket ahead.

Temple Probably Elected.

SAN FRANCISCO, November 2.—Returns up to 1 o'clock indicate that Patterson and McFarland, Republicans, and Temple, Democrat, have been elected to the Supreme Bench. The latter has run far ahead of his ticket, scratching in his favor having almost everywhere prevailed.

Cleveland Gets Returns.

WASHINGTON, November 2.—Washington received election news apathetically. A quiet crowd of six or seven hundred surrounded the Post building, where returns were displayed on transparencies, but with this exception news centers wore their customary appearance and the enthuisasm oftimes seen before the passage of the civil service law had died out. The President received full returns by telegraph from the office of the Associated Press.

Labor Ahead.

MILWAUKEE, November 2.—Indications show the re-election of Governor Rusk, Republican for Governor, by a plurality of from 6000 to 10,000 in Milwaukee county. The Labor party carried things by storm, indicating the election of the entire labor county ticket.

Some Democrats Elected.

MEMPHIS, Tenn., November 2.—Judge J. B. Morgan, Democrat, is elected in the First Congressional District of Mississippi, defeating General James R. Chalmers, the Independent, Greenbacker and Republican candidate by a large majority. P. T. Glass, Democrat, is re-elected to Congress from the Ninth Tennessee District, defeating Davis A. A Democrat Elected.

ALBANY, N. Y., November 2.—The probabilities are that the Democrats have elected Kane over Swineburne for Congress.

A Sure Thing.

NEW YORK, November 2.—Returns so far as received from the Sixth Congressional district, show a walk-over for Amos J. Cummings, who is on both the Republican and Democratic tickets.

In Arkansas.

MALVERN, November 2.—For Congress this precinct gave McRae, Democrat, a majority over Ray, Republican, of 1271, and over Hill, Labor, 123. Full returns from the county cannot be obtained to-night.

A Robbery.

TOLEDO, Ohio, November 2.—The United States Express Company has another mysterious robbery on its hands. On the arrival of the Lake Shore train from Chicago last evening it was discovered that something wrong existed in the through express car that runs closed and sealed between Chicago and New York. Examination developed the fact that the car had been entered and sundry packages containing valuable merchandise had been opened by robbers, and an unknown quantity of goods carried away.

Railroad Meeting.

On Thursday evening last a meeting of the residents of this valley was held in Logsdon Hall for the purpose of listening to the plan of Messrs. Boren & Flanders, of San Bernardino to build a branch railroad to the tracks of the California Southern railroad at Box Springs. The hall was well filled and the subject was discussed for two hours, at the conclusion of which a committee of seven was appointed to take steps to ascertain what amount of money or land would be contributed by the different parties to be benefitted.

The committee will hold another meeting on Saturday night in Logsdon Hall to discuss the project of raising $80,000—the amount of money demanded by the San Bernardino parties for building the branch railroad to the Southern California Railroad. Some of the largest land owners in the valley failed to attend the meeting, and it is not known whether they will contribute to the object in proportion to the benefits to be conferred on them. One party who owns some thousands of acres of land, very liberally (?) offered to contribute $25! If the others do as well in proportion, the railroad will certainly be built by 2500!

We hope the committee will meet with more encouragement than this would indicate, and will be able to present a plan to our citizens which will heal all differences, and of sufficiently far-sighted scope to grasp the future needs of the valley.—San Jacinto Register.

John Wannamaker gave $85,000 toward the Philadelphia Association building and says in a letter, "As to the value of the Association building I am free to say that a city like Philadelphia with its hundred thousand young men, could get along better without its street railroads than without its fine, commodious Y. M. C. A. building. No better investment has ever been made in this city by its merchants and business men than the gymnasium, library, reading-room and halls that they have for their young men. I consider it of great importance that every city should have a building as headquarters for its young men.

A DEADLY FEUD

Between Two Orange Farmers Terminates in Murder.

For a long time bad blood had existed between J. J. Bodkin and John Elam, both farmers living in the neighborhood of Orange. They had a law suit about chickens and tresspassing colts, which caused them to be very bitter to each other. Bodkin was rather afraid of Elam and in order to avoid him went to Pasadena. During Bodkin's absence it appears that his wife was very much annoyed by persons throwing stones at the house and a good deal of damage was done on the ranch. She became so frightened at last that Joel Parker, a neighbor, in order to induce her to remain on her farm had to let his daughter remain with her. Bodkin returned a short time ago from Pasadena and Elam is reported to have recommenced his line of persecution against him. On Monday morning at 9 o'clock they met at the barn of Mr. Parker, which is about two miles east of Orange, and Elam sought a dispute with Bodkin about his boy, 9 years of age, whom he said was impudent. From words the quarrel proceeded to blows and Bodkin finally pulled out a pistol and shot Elam through the abdomen, the ball passing clear through his body. Bodkin immediately proceeded to Santa Ana and gave himself up to the Deputy Sheriff at that place, and he was placed in the jail, which is quite near his house. Elam lingered on until yesterday afternoon when he died. The Coroner was notified and went down to Orange yesterday evening. The examination of Bodkin on the charge of murder is set for this morning. Bodkin is about forty years of age and a schoolteacher by profession, and Elam was 33 years old.

To the respected corps of gentlemen on committees, whose good management and untiring zeal so greatly contributed to the excellent order and pleasant harmony which prevailed throughout the fair; to the "Press," for its invaluable aid, and to Los Angeles Gas Company, for use of gas; to all, both in the city and in the country, who, by their donations in money, refreshments and fancy articles, have contributed to make the fair a success; may our Heavenly Father bless with every good gift, all who have been so generously mindful of the fatherless.

A Lively Runaway.

As Mr. R. Dunnigan's fine black team was being taken from Ferguson's stable yesterday, a buckle in one of the lines caught in a harness ring, and the team starting to move off in the usual rate of speed, the boy holding the lines found he could not control the horses, dropped the lines and jumped from the carriage, whereupon the steeds rushed down Main and Spring street with increasing speed. The thoroughfare was crowded with vehicles of all sorts and with pedestrians, many of whom were in danger of being run over. Numerous efforts to stop them failed. But the most interesting point in their career was where just before reaching the Pos office they were racing straight towards a laden street car, whose team and driver were struck with a hopeless panic plainly visible. But the beautiful horses then and there exercised some of that accredited sense supposed to be even superior to the human, and veered around the car and its inmates in admirable style, and then ran onward, and around the corners into Fort street, where they allowed themselves to be caught, having but slightly damaged the carriage, hurt neither themselves nor any one else, and seemed to feel that they had had a "high old time."

A New Export Article.

To-day, Messrs. Burdett Chandler and Walter S. Maxwell will commence to haul asphaltum from their mines at Petrolia to this city, where it will be refined and shipped to Europe. In a short time the business of refining will be carried on at Petrolia instead of this city and save considerable expense.

The first shipment will consist of 200 tons of refined asphaltum like that used in street paving in this city. Should this article be received with favor in Great Britain it will form an important factor in the exports of Los Angeles and Ventura counties, which contain a vast amount of this material.

It is to be hoped that these enterprising gentlemen will find the shipment profitable and make it a permanent source of business hereafter.

The Postoffice.

During October the Postoffice of Los Angeles city transacted the following business: Registered letters delivered, 390; mail letters delivered, 70,760; postal cards delivered, 7198; local letters delivered, 4 14; 54,368 newspapers were posted through the office and 58,868 letters were collected by the carriers from the boxes; 8458 postal cards and 4982 newspapers were also taken up. The postal revenue for the month from this matter aggregated $687.40. During the month stamps were sold to the amount of $1809, and 10 letters were delivered under the special delivery system.

A Philanthropist.

Mr. Thos. Beaver, a wealthy gentleman of Danville, Pa., has been for some time desirous of erecting a public building to be devoted to some philanthropic use. After careful investigation, he has determined that it should be devoted to the work of the Young Men's Christian Association. The building is to cost about twenty thousand dollars. This is a practical business man's substantial appreciation of the Y. M. C. A. work. Who is the Thomas Beaver of Los Angeles, who thinks enough of the young men of this town to go and do likewise.

ON ASTHMA.

It is a common error to suppose every disease which is attended by oppressed breathing to be Asthma or Phthisic. We have shortness of breath in Consumption, Bronchitis and Pneumonia, just as we do in Asthma, only that in these diseases it is always present, whereas in Asthma it occurs in paroxysms.

Asthma is a spasmodic disease of the lungs, which manifests itself in periodic attacks or "fits." It comes on suddenly and is attended with great difficulty of breathing while it lasts, but when the attack is over the patient breaths almost as well as in health.

The Asthmatic fit may come on at any time, day or night, but most commonly occurs after midnight and before morning. The patient is suddenly awakened by a difficulty of breathing, a feeling of weight or constriction of the chest. It feels as though it were bound. He sits up in bed, pants or gasps for breath, and in bad cases, calls for the doors and windows to be thrown open. Perspiration stands out in large drops on the forehead, the face looks haggard, the lips are livid, the extremities cold, and the heart beating violently.

Persons badly afflicted with the disease are, during the fit, insensible to everything save the desire for air. I have known them to rush to the open window and hang over the sill for hours in mid-winter, utterly regardless of the cold. The feeling is precisely that of pending suffocation, and the poor sufferer endures for a time all the agony of drowning or slow strangulation.

But happily for the patient his confidence never deserts him. He feels that it will soon be over, and then he will get relief. After a longer or a shorter period, according to the severity of the case—generally a few hours—the tightness at the bottom of the chest relaxes, the breathing becomes deeper, the patient can speak and cough without difficulty, and begins to expectorate freely. At length, worn out by the intensity of his sufferings, he falls to sleep and the attack is at an end.

Nervous, Humid and Dry Asthma are names given to different forms of this disease. Emphysema is another and more inveterate kind of Asthma, while Hay Fever or Rose Cold is a peculiar variety of Asthma which occurs at a certain season of the year. Each of these forms of disease differs somewhat from the others in symptoms, but practically these distinctions are of very little value. It does not matter to the patient which form of Asthma he has since his sufferings are the same in all. In one case the expectoration becomes yellow, and we call it bronchial. In another it is light and we call it dry. When he coughs up clear water, with a white froth on the surface, we say he has Humoral Asthma. In Nervous Asthma there is very little expectoration of any kind. Hay Fever always begins as a crying cold in the head or influenza, and a clear water runs from the nose and the eyes before the Asthma fit comes on. In Emphysema the expectoration is generally thick, and continues so in the interval between the fits, while the shortness of breath is increased on the slightest exertion.

There is no rule which can be said to be uniform in Asthma. In one person the disease will entirely pass off after a single attack, and remain well for weeks. In another there will be several fits in succession, with only short intervals between them, and then the patient escapes for a longer period. In some fits occur regularly at stated times. Some asthmatics breathe best in the city, while others cannot pass a night in town without suffering an attack. One prefers a low land as a place of residence, and another can only sleep on high ground. A particular exposure of a room will often make a difference, and I have known people who could sleep on one side of the street and not on the opposite. The smell of hay, roses, and even of the stable, with many is sufficient to bring on a paroxysm. Some cannot drive behind horses, or endure a cat in the same room.

All this must seem strange and almost absurd to those who know nothing of the disease by experience, but those who are afflicted with it understand the matter. So sensitive are some people that they cannot enter a drug store where ipecacuanha is kept without experiencing an oppression in breathing.

Asthma depends more on atmospheric causes than other lung diseases. The mucus membrane is morbidly sensitive to any change in the air, in the excess or deficiency of its zone—in the presence of smoke or dust; on the temperature, humidity, or even impregnance with the delicate fragrance of flowers and plants. Few people have any idea of the powerful influence exerted for good or ill by what we inhale. The air is the great source from whence we contract most diseases and it is only by employing it as the carrier of remedies that many of them can be cured. This is peculiarly the case with all diseases of the air passages and lungs, of none more so than asthma.

It is a foolish conceit of many people to believe that if they have Asthma they can not get Consumption. The truth is the very opposite. They are more liable to fall into Consumption because they have Asthma. Another idea is, that Asthma itself is not a dangerous disease, and yet the published bills of mortality for this city prove to all who read them that great numbers lose their lives every year.

Without courage and perseverence nothing is curable. But with these, aided by proper and skilful treatment, Asthma can be cured even after the lungs are extensively diseased.

The asthmatic sufferer, therefore, should lose no time in having this terrible disease eradicated from the system before it is forever "too late."

Our Eastern friends should not depend upon climatic influences alone, for herein lies the fatal mistake. Nearly every case requires positive medical aid, so as to become rid of the offending matter—the consolidated portions of the lungs—so as to give nature an opportunity to heal them.

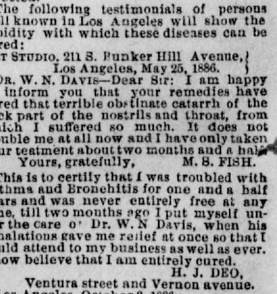
—BY—
W. N. DAVIS, M. D.,
45½ N. Spring St, Los Angeles, Cal.

The cut below shows the bacilli or parasites which cause catarrh, magnified times.



The Doctor devotes his treatment to the destruction of these by means of local remedies, which can be applied by the patient at home, without pain, inconvenience or detention from business. Constitutional remedies are employed in most cases to purify the blood, regulate the liver and build up the general system.

The best apparatus in the country is used to apply medicines directly to the sores or seat of inflammation at the office when necessary

If patients can come regularly to office for treatment cases of forty years standing can in nearly every case be cured permanently.

Children can be treated with no trouble, and never yet has the doctor failed in a child where remedies have been used as directed.

The following testimonials of persons well known in Los Angeles will show the rapidity with which these diseases can be cured:

ART STUDIO, 211 S. Bunker Hill Avenue,
Los Angeles, May 25, 1886.

DR. W. N. DAVIS—Dear Sir: I am happy to inform you that your remedies have cured that terrible obstinate catarrh of the back part of the nostrils and throat, from which I suffered so much. It does not trouble me at all now and I have only taken your teatment about two months and a half.

Yours, gratefully, M. S. FISH.

This is to certify that I was troubled with Asthma and Bronchitis for one and a half years and was never entirely free at any time, till two months ago I put myself under the care of Dr. W. N Davis, when his inhalations gave me relief at once so that I could attend to my business as well as ever. I now believe that I am entirely cured.

H. J. DEO,
Ventura street and Vernon avenue.
Los Angeles, October 2, 1886.

DR. DAVIS:—If it were not for you I am satisfied that I would now be dead with lung disease, which had troubled me for two years, as at the time I commenced treatment last summer I was so low that I could not continue my trip East after starting, and was obliged to return from Mojave. I wish to testify that I was entirely cured in three months and found your charges very reasonable. MRS. H. P. MURSEREAW,
22 Bernard street.
Los Angeles, February 3d, 1886.

Hundreds of other testimonials and references could be given were it necessary. As many as three persons have been cured in one family.

Cure for Piles.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. New York True to the Party.

Advices from New York at 11 o'clock last night indicate that Mr. Hewitt is elected to the Mayoralty of New York city without any doubt. This news will be received with genuine satisfaction in all parts of the Union, by all conservative men, and intelligent lovers of their country. This is said in no spirit of unkindness to Mr. Henry George, nor in any lack of appreciation of his conceded great talents. He appears to our mind as one thing in the *role* of a philosopher and as another in that of a Mayor of so great a city as the metropolis of the New World.

It seems to be a part of the law of compensation which runs through all life, that no man shall be pre-eminently great in more than one branch of mental achievement. This rule holds particularly good in the case of the pure philosopher. He is essentially a dreamer, an impractical dreamer, who spins fine theories, the seeds of much practical usefulness in the future. But it is remarkable that the philosophic dreamer seldom knows at all what to do with his theories. They are the raw material which he has no mental machinery to convert into any fabric of use. The genius who dreams his fine spun theories is generally unconscious of what he is doing. The real genius is usually without conceit or pride in his work. He is like the unconscious acts of nature which deck the meadows with flowers and clothe the mountain side with foliage. The great, deep spirit of the universe is all unconscious of what it does, or the meaning of it all. That spirit merely dreams, and throws off in dreams all these myriad forms of beauty. Practical man takes all these productions and makes thereof all the useful commodities that minister to his life. So with the dreams of the Henry Georges of the world. They are seized upon by the practical man, and made into laws which bless the every day lives of men in this work-a-day world. The world can not do without the dreamer, still less can it do without the practical, plain man who makes these dreams useful to his brethren. Mr. George writes Progress and Poverty, and Mr. Hewitt governs the great municipality. Change their places and Hewitt writes a very stupid book, while George guides the destinies of the municipality as Apollo drove the chariot of the sun.

Now in the laws of nature it takes about one Henry George to a generation, and that one, however necessary he may be to that generation, is greatly in danger of driving it crazy. Nature has wisely decreed that the genius shall fail at whatever he touches of a practical nature, and thus she drives him back to his dreams. She has need of this raw material, this lovely flower of imagination and fruit of thought, out of which her more prosaic and practical sons shall frame new codes of laws, and rules of life. She only gets one genius in a life time to do her dreaming and she wants to keep him down to his proper work, and not waste him on the mere practicalities of life.

The people of New York are working in perfect harmony with nature when they insist he shall seclude himself from the bustle of the world, from the cares of life, and dream on his dreams, furnishing raw material for some Legislator like Parnell or Gladstone to frame into laws, which some administrative men like Cleveland or Hewitt shall put into practical operation.

Therefore to all wise and conservative persons it will be eminently satisfactory that this proper distribution of labor shall be made between these two men. George goes back to his books, his pencil and his dreams, and Hewitt guides the city with success in the practical channels of commerce, finance and trade.

Yesterday's Election.

The political contest yesterday was such as any city in the land might well be proud of. There was not the least disturbance or disorder in any part of the municipality. This was the more remarkable owing to the fact that the struggle was quite earnest, that in one or two cases personal feelings were very warmly energized between the candidates on the two great party tickets. In some instances members of one or other of these parties were known to be working earnestly and even rather openly against the party nominee. In spite of these circumstances, which usually prove to be quite sufficient provocation to constitute a *casus belli*, all concerned conducted the fight with the utmost quiet and regard for good order. The first indications pointed to a heavy vote, for by noon fully 3000 votes were polled out of a total of 8,134 in the municipality. This meant active voting for a period of less than five hours at ten polling places. This order of business was somewhat changed later in the day, as was manifest by the fact that at the closing of the polls only a trifle over 5000 votes had been cast.

The two great parties were about the only figures in the drama, the side-shows being made up of a very beggarly account of stragglers who chipped very insignificant bits off the main blocks. At the close of the polls there was no possibility of even guessing how matters stood, the scratchers with their little pencils to an extent hitherto unknown in a political contest being out.

The light vote would seem to prognosticate favorably for the Democracy. The opposition claimed the county by a very large majority. They probably have some advantage on a straight party issue where the people's blood was all up to a pitch sufficient to call out the full strength of both parties. Probably quite as many of the opposition stayed at home as of the Democracy. This condition of things does not jeopardise the local ticket at all, and rather favors our State and District tickets.

Some weeks ago several distinguished citizens went before the County Board of Supervisors and urged a redistricting of the city in order to facilitate the polling of the people's votes. The HERALD at that time urged that such action be had as would effectively accomplish this most desirable end. Instead of heeding this plea for the comfort and convenience of the citizen it was not heard. A mere pretense of doing the proper thing was made, but little to the point. In the precinct voting at the corner of Commercial and Los Angeles streets the need of more relief in this regard was greatly exemplified. All day long a great line of citizens stood on their under-pinning for over an hour waiting to get to the voting place. Many were obliged to return to their labor and thus lose their rights of citizenship. When the sun went down quite a line of them had the political door slammed in their teeth. They could not vote. In this precinct only 824 votes were cast. When the bounderies were fixed it was known that the toilers within its borders were mostly of the Democratic persuasion. This wrong should be righted at the earliest day possible. The first duty of all free government is to make every facility for obtaining the fullest expression of the will of people.

The Growth of Los Angeles.

The appearance of the Great Register complete gives us the registration of the city and county accurately. Fully a month ago the HERALD estimated that 15,000 to 16,000 would be about the figures. Later when part of the book was printed we estimated it at about 16,000.

As a matter of fact the book proper cantains 16,311, and with the supplement the total is 17,108.

Of these there are in the city 8134, leaving to the part outside of the city 8,874.

Two years ago the figures were city 6,165; and country 6,525; total 12,960.

A growth of 4,148 in the two years is most gratifying. In 1884 the country had an advantage over the city of 360 votes. At the present time the difference is 740 in favor of the country. This would indicate that the country is fully keeping pace with the city in the matter of growth, a most healthy state of affairs.

Applying the usual ratio of voters to population gives the city about 42,500 to 45,000, and the whole county about 87,500 to 90,000 souls.

Los Angeles is at this time the second county in the State in point of numbers. Her growth is very much more rapid, than that of any of her large rivals, and she may be expected to forge rapidly ahead of all excepting San Francisco for a long period to come.

It is estimated that the new vote of the State is about 20,000. The fact that Los Angeles county alone has fully 25 per cent. of this ought certainly to be satisfactory to the greediest of speculators in real estate. It is a very significant fact that nearly the whole of this new vote is found south of the Bay of San Francisco. It is nearly all found along the upper part of the San Joaquin Valley, in the counties south of the Tehachepi mountains and in San Luis Obispo. With Los Angeles stands San Diego, San Bernardino, Tulare and Fresno in the matter of most phenomenal growth. This will continue to be the rule of growth for a long series of years to come. The building of railroads will greatly stimulate growth in the sections named above. The next two years will witness a still larger growth all along this line. It may seem to those who do not know much of the facts, strange to say that in the near future Los Angeles may creep up close enough on the heels of San Francisco to press her a little in the matter of precedence. All needed here to bring this about is a little start in manufactures. This will all come in due time.

Los Angeles Regenerated.

At this writing, one o'clock A. M., the counting of the city vote is proceeding with much tardiness owing to the fact that the voter has in an eminent degree exercised his sovereign will and "scratched" his ticket to his heart's content. It will be a matter of unspeakable satisfaction to the people of this city and county to know that city, county and State apparently may have wheeled into line and rolled up a very satisfactory majority for the principles of true Democracy and for the representative standard bearers of the party.

Details in the HERALD up to the time of going to press are all in that direction. In many places the returns that have come in are a genuine surprise to all who have scanned them. Of course the vote is not by any means counted, and until it is no one can be sure of the result, but it is altogether a matter of probability that as the part counted goes the whole goes, and as several precincts run, so the county will run. The outlook for the State is quite as good. The Legislature is in a most hopeful state for success—"a consummation devoutly to be wished," in view of the fact that they may have the honor of assisting in the election of a United States Senator. It is to be hoped that all these indications may prove true.

GOT ON HIS EAR.

A Candidate Who Gets Mad and Kicks.

Henry T. Hazard, candidate for the State Senate, went into a Los Angeles street printing house yesterday to get some circulars which he had had printed to reply to a statement made by a Mrs. Mary A. Larsen, who claims that she has been defrauded out of some land by Mr. Hazard. While there he saw some tickets printed against him by the same woman, which caused him to get very incensed. In his anger he seized the forms and pi'd them on the floor, and pitched the tickets along. An unlucky printer's devil, who sought to stop the destruction of his master's property by picking up the tickets, was prevented from so doing by the angered gentleman, who pulled out a pistol and compelled the boy to leave the stuff on the floor.

Bronchitis and asthma promptly succumb to Red Star Cough Cure. No depression.

More Animals for the Zoological Gardens.

Dr. Charles J. Sketchley returned yesterday from a trip to San Diego. While there he purchased a large number of wild animals that were formerly in possession of Till A. Burnes. The animals will be brought to Los Angeles and placed on the ostrich farm. Among the animals was a large black bear weighing 1100 pounds.

Pasadena Items.

(From the Valley Union.)

An A. T. & S. F. car arrived direct from Boston with fifty dining-room girls for the Raymond on Wednesday.

Plans for the South Pasadena depot building are now complete. It will be handsome and roomy.

On Sunday last, Rev. C. W. Tarr organized the Methodist Episcopal Church of South Pasadena. The beginning is small but it will grow. The Sunday school grows amazingly.

The school house here is being crowded worse and worse. The enlisting of some of the scholars for bell boys at the Raymond affords no relief. Parents have to send in chairs to seat their children.

The Library Association have accepted the proposition made them by Mr. Charles Legge of a lot on the corner of Locust street and Raymond avenue. Mr. Legge agrees to give $1000 toward a $15,000 building fund.

The gas company commenced manufacturing gas Wednesday and the mains to the Raymond House have been put in service, and the entire building can be lighted any time. Work is being pushed on the mains on Colorado street.

A special car of the Fitchburg line arrived here Wednesday morning from Boston with a party of 27 persons, under the charge of Alonzo Tower, from Boston and Concord, Mass. The car bore a large streamer the entire length, marked, "Towers' Excursion: Boston to Pasadena, Cal."

The Fair Oaks street cars will run every half hour each day. No stop for meals, as has been the case. Also wait for evening entertainments at each end. Run for morning services on Sunday, and thereafter regularly until after close of evening services. Time table changed next week.

Theatrical.

The most interesting and novel entertainment that has ever appeared in Los Angeles will appear for three performances only, Friday and Saturday evenings and Saturday matinee, at the Grand Opera House—Marshall's Japanese Tourists, whose feats at juggling, balancing, tumbling, are really astonishing, and far superior to anything ever seen with a circus. Their costumes are very fine, and as they appear in their native dress, with blouse and baggy trousers, the sight is very imposing. The double running bamboos, pyramid contortions, paper rope walking, rope ascension and terrific slide for life, dancing rice barrel, etc., etc., are truly wonderful feats. The sale of seats begins this morning at the box office.

Scavengers of Importance.

Next to the bowels, or rather in conjunction with them, the kidneys and bladder are the most important scavengers of the system. They purify the blood and carry off its refuse, preventing rheumatism dropsey, Bright's Disease and diabetes by their active cleansing work. Hostetter's Stomach Bitters, when the kidneys evince a tendency to relax the activity of their important function, renews it, and thus averts renal maladies, the most difficult to cope with, and which superinduce a frightful loss of bodily tissue, stamina and flesh. When the renal organs exhibit the slightest symptoms of inaction, they should at once receive the needful stimulus from this safest, surest and pleasantest of diuretics. Chills and fever, dyspepsia, constipation, liver complaint and debility are also remedied by it.

COMMITTEE ON BRIDGES.

1. Report that with the City Surveyor the committee has examined the plans of, and tested the beds for, the Buena Vista street bridge, and find the San Francisco Bridge Company's plans to be strictly in accordance with the condition under which proposals were invited, and their bids are lowest on each class of the structure as segregated, and recommend giving the contract to that company. Their bid for the entire structure, with three spans resting on concrete piers, was $22,000; and with the same superstructure resting on cylinders, $20,500. The committee prefers the concrete piers, but, unless Council makes the "fills" for the approaches, the amount appropriated and subscribed is just sufficient to complete the entire work with cylinder piers. With concrete piers the work can be completed in ninety days. Further recommend that the Clerk return checks and bids to the other bidders. Mr. Kuhrts moved to adopt the report and that the City Attorney draft a contract for concrete piers. Carried.

2. Herewith present a plan from the City Surveyor's office for the Wall street bridge and recommend its adoption. Its costs, including bulkheads, rip-rap and fills for approaches, will be between $3300 and $3500. The bridge is calculated for an 80-pound live load, which is double that of the First and Aliso street bridges. Adopted.

3. Present plans for the Chavez or Kuhrts street bridge and recommend its adoption. The bridge is calculated for a 100-pounds live load, and is a combination Pratt. With a 30-foot highway will cost about $2500, including approaches. Adopted.

A Great Railway.

The Chicago, Milwaukee & St. Paul Railway Company now owns and operates nearly fifty-six hundred miles of thoroughly equipped road in Illinois, Wisconsin, Minnesota, Iowa, Missouri and Dakota. Each recurring year its lines are extended in all directions to meet the necessities of the rapidly populating sections of country west, northwest and southwest of Chicago, and to furnish a market for the products of the greatest agricultural and stock-raising districts of the world. In Illinois it operates 320 miles of track; in Wisconsin 1220 miles; in Iowa 1575 miles; in Minnesota 1125 miles; in Dakota 1190 miles; in Missouri (now building) 150 miles, and the end is not yet. It has terminals in such large cities as Chicago, Milwaukee, La Crosse, St. Paul, Minneapolis, Fargo, Sioux City, Council Bluffs, Omaha and Kansas City, and along its lines are hundreds of large and small thriving cities, towns and villages. Manufacturing interests are cultivated and all branches of trade find encouragement. The railway company has a just appreciation of the value of its patrons, and its magnificent earnings are the result of the good business tact which characterizes the management of its affairs.

The popularity of the line is attested by the fact that notwithstanding the strongest kind of competition of old and new lines, the Chicago, Milwaukee and St. Paul Railway continues to carry fully sixty per cent. of all the business between Chicago, Milwaukie, St. Paul and Minneapolis. It is the best patronized route to and from all points in Wisconsin, Minnesota, Dakota and Iowa, and on the completion of its Kansas City line early in 1887, it will undoubtedly take equal rank with the older lines leading to and from the Southwest.

On all its through lines of travel the Chicago, Milwaukee & St. Paul Railway runs the most perfectly equipped trains of Sleeping, Parlor, and Dining Cars and Coaches. No effort is spared to furnish the best accommodations for the least money, and, in addition, patrons of the road are sure of courteous treatment from its employés.

Take it all in all, the Chicago, Milwaukee & St. Paul is the peer of any railway in this or any other country.

Coal in the Coast Range.

About five years ago a discovery was made in the foothills of the Coast Range of a coal measure, and Messrs. Robinson & Rawlins, having purchased the right to a considerable portion of the claim, proceeded to develop it. As soon as it was found out that the mines might prove valuable, claimants sprang up and the firm from that time until recently have been fighting pretending claimants to the property in the United States Land Office at Washington, D. C. A few months ago the decision confirming their title and rejecting the claims made against them was made, and they began at once to develop the r property.

The mines are situated eighteen miles southwest of Huron, which is now the terminus of the railroad. The coal measures extend geologically one hundred feet vertically, and consist of five separate veins, the first of which is twenty inches in depth, the second twelve inches, the third and fourth six inches each, and the fifth four feet. The pitch is about thirty degrees.

Robinson & Rawlins have run in a tunnel on a level fifty feet above the plain, and have been taking out a highly inflammable quality of coal from the four foot vein. It is calculated that this vein alone holds one and a half million tons of coal above the present level that can be delivered in the screens or bunkers by gravity. The present improvements on this property are valued at $50,000, and it would be difficult to get the owners to set a price on the mine, since there is actually "millions in it." This coal is now sold in Fresno in carload lots at $7 per short ton of two thousand pounds, notwithstanding the fact that it costs from $3 to $3 50 to haul it by team to Huron. With a railroad or a tramroad from Huron to the mines, coal could be sold in Fresno at $ per ton.

The coal is of a peculiar character. It is high in hydro carbon. Chemical analysis of the outcroppings, where the oxidation had taken place to some considerable extent, and the product was considerably leached out, still showed 48 per cent. of volatile hydro-carbons and 24 per cent. of fixed carbons—the rest being moisture and ash. These coals do not coke, and are too highly volatile and inflammable for railroad engines, but for stationery engines, domestic use and purposes, where a quick, hot fire is needed at small expenditure of fuel, they are unsurpassed. They are excellent coals for gas purposes, except that they do not coke. For household purposes, stationery engines, brick burning, etc., they are a far better and cheaper fuel than wood.

We are anxious to see a railroad built from Huron to the mines, and this fuel brought into the market, as it will aid materially our raisin and wine men in the competition they have with other competing localities where fuel is cheaper, and will be of great advantage to our mills and machine shops.—Fresno Expositor.

ROBUST HEALTH

Is not always enjoyed by those who seem to possess it. The taint of corrupted blood may be secretly undermining the constitution. In time, the poison will certainly show its effects, and with all the more virulence the longer it has been allowed to permeate the system. Each pimple, sty, boil, skin disorder and sense of unnatural lassitude, or languor, is one of Nature's warnings of the consequences of neglect.

Ayer's Sarsaparilla

Is the only remedy that can be relied upon, in all cases, to eradicate the taint of hereditary disease and the special corruptions of the blood. It is the only alterative that is sufficiently powerful to thoroughly cleanse the system of **Scrofulous** and **Mercurial** impurities and the pollution of **Contagious Diseases.** It also neutralizes the poisons left by **Diphtheria** and **Scarlet Fever,** and enables rapid recuperation from the enfeeblement and debility caused by these diseases.

Myriads of Cures

Achieved by AYER'S SARSAPARILLA, in the past forty years, are attested, and there is no blood disease, at all possible of cure, that will not yield to it. Whatever the ailments of this class, and wherever found, from the scurvy of the Arctic circle to the "veldt-sores" of South Africa, this remedy has afforded health to the sufferers by whom it was employed. Druggists everywhere can cite numerous cases, within their personal knowledge, of remarkable cures wrought by it, where all other treatment had been unavailing. People will do well to

Trust Nothing Else

than AYER'S SARSAPARILLA. Numerous crude mixtures are offered to the public as "blood purifiers," which only allure the patient with the pretense of many cheap doses, and with which it is folly to experiment while disease is steadily becoming more deep-seated and difficult of cure. Some of these mixtures do much lasting harm. Bear in mind that the only medicine that can radically purify the vitiated blood is

Attention, Everybody!

A fine opportunity is offered for investment. I now offer for sale the entire property at Lang's Station, on S. P. R. R., forty-three miles from Los Angeles city, north, in Los Angeles county, consisting of the following: 240 acres of fine land with abundance of water to irrigate every foot every day of the year—never fails. Fountain head on the land and is located on the highest ground at the head of the ranch, where it can run in ditches all over the property, which it is doing at the present time, and besides this water there is about ten fine white sulphur springs on the place, admitted by every test to be the finest on the Coast. About twenty-five acres of bearing orchards, all kinds of fruits; one orchard thirteen years old. Everything very healthy. Never any scale bug known in this section. Vineyards, flower gardens, fine two-story hotel only two years built, neatly finished throughout. Depot, post-office, express and ticket offices here at hotel door. Schools convenient. No fogs. Altitude 1820 feet. Title to land, water and everything perfect. Am not particular about full payment down, as the property is good security. This is no doubt the finest opportunity in the State for establishing a large, paying and attractive health resort, the sulphur springs being in beautiful groves of very large growth, completely shading them. These springs boil up in plain sight, clear and sparkling as a diamond, beautiful to drink. During my sixteen years' residence right here at these springs, I have yet to find the first one coming here with asthma, dyspepsia, coughs, chills, liver complaints—almost anything not seated consumption—but left here entirely cured. I believe this the healthiest spot the sun shines on. Were I 25 years younger this property could not be bought for twice the amount I will take now, which is $25,000. Age demands of me retirement from an active business life, hence for the first time I offer to sell. Now let no one think this is a speculation on my part. I have an adjoining ranch where I intend spending the balance of my life privately, on account of health, believing I will live to a greater age.

Address all communications to the proprietor.

A Remarkable Cure of Scrofula.

William S. Baker, of Lewis, Vego county, Ind., writes as follows: "My son was taken with Scrofula in the hip when only two years old. We tried several physicians, but the boy got no relief from their treatment. Noticing your SCOVILL'S SARSAPARILLA AND STILLINGIA, OR BLOOD AND LIVER SYRUP recommended so highly, I bought some of it of you in the year 1862, and continued taking it till the sore finally healed up. He is now 21 years of age, and, being satisfied that your medicine did him so much good when he used it, we want to try again in another case, and write to you to get some more.

"John, what are those round ivory things in your dress vest pocket?"

"T—those are samples of b—buttons that I have got at ma t—tailor' t—d—day before yest——"

"Which do you propose to choose for steady wear, John, the red, the white, or the blue ones?"

The Original

Abietine Ointment is put up in two ounce tin boxes, and is an absolute cure for old sores, ulcers, burns, wounds, salt rheum, fever sores, chapped hands and all skin eruptions. Will positively cure all kinds of piles. Ask for the Original Abietine Ointment, in two ounce boxes. Price, 25 cents. For sale by Preuss & Hance, Druggists, 77 and 79 N. Spring street.

Compensation: "Ullo, Jones! You in Paris?" "Yes, I've just run over for a holiday." "Where's your wife?" "Couldn't come, poor dear. Had to stop at home on account of the baby." "Why, your holiday will be half spoiled." "Yes. Mean to stay twice as long to make up."

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price, 25 cents per box. For sale by C. F. Heinzeman.

Miss Maud Howe says that it is the first instinct of every woman on arriving at a strange place to go and buy something. By a curious coincidence, nearly every man has the same feeling on arriving at a strange place. And he goes and buys it, too—if there is a saloon or an hotel in the neighborhood.

Abietene Ointment.

ABIETENE is produced in the Northern part of Butte county, Cal., and combining with it Vaseline and other Therapeutic agents, we challenge the world to produce anything to equal ABIETENE OINTMENT for old sores, Ulcers, Salt Rheum, Corns, Chilblains, Fever Sores, Chapped Hands, Cancers, Burns, Ring Worms, Bleeding, Blind, Itching and Ulcerated Piles and all eruptions of the skin. Price 25 cents. Sold by E. F. Heinzeman.

"Wouldn't you think those girls would shrink from appearing in such short bathing dresses?" said old Mrs. Crimsonbeak to her daughter, while watching the bathers at Long Branch.

"It's a pity they don't," said Miss C. with asperity, "they'd fit their clothes better if they did shrink."

Better than Gold

Can be said of that new and efficacious remedy for consumption and diseases of the throat, chest and lungs, Santa Abie, for it is pleasant to the palate and death to a cold. Every bottle warranted by Preuss & Hance, the druggists.

A Blessing to the Human Race.

California with her extensive and never-failing wheat fields are a great blessing to the human race, yet Abietene which can only be produced in the Golden State is destined to become one of her chief products and be as much of a blessing to the world as her wheat fields. Abietene has great healing and purifying properties, and by incorporating it into the Abietene Cough Balsam, as we have, it makes a cough remedy that has no equal. And there is nothing that will heal the lungs so rapidly and cure all throat and lung troubles so thoroughly. It contains no opium. Price 75 [illegible]nts. Sold by Heinzeman the Main street [illegible]ruggist.

Nothing exasperates a woman who has been shading her eyes from the gaslight with her hand all the evening so much as to find that after all she had left her best diamond ring on the washstand.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. HAMBURG FIGS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors S. F.

A Great Southern Remedy.

Simmon's Liver Regulator, purely vegetable, is universally used in the South to arouse the torpid liver to healthy action. It cures malaria, biliousness, dyspepsia, headache, constipation and piles. No nausea or griping. It is most effective in starting the secretions of the liver, causing the bile to act as a cathartic. Regulates the bowels, imparts vigor and health to the whole system.

TESTIMONIALS.

LOS ANGELES, Cal., May 28, 1886.

This is to certify that I came to Dr. Dawson on the third day of this month, being afflicted with Indigestion, Headache and General Debility. To-day I can eat a good square meal; headache all gone, and feel strong in body, and do say that Dr. Dawson's treatment is a success, for I feel ten years younger from the effect of the treatment.

JAMES JANES.

TO WHOM IT MAY CONCERN:—This is to say that I came to Dr. Dawson experiencing all the distressing effects of a debilitated nervous system, and since receiving the Doctor's treatment I can say that I feel like another man. The Doctor treats by Electro-Magnetism, or by a new system of Massage, which sends the current at once to the afflicted part, and the result is truly miraculous. The Doctor is a gentleman and deserves your patronage. W. J. DEEMS.

DR. DAWSON: *Dear Sir:*—I feel so grateful to you for curing my cough. I am quite free from pain which I had in my chest, shoulder and back, and am now gaining in flesh very fast. I had two brothers and one sister to die with consumption, and was sure that I was taken with the dreaded disease; but, thanks to your successful treatment, I feel a new woman.

MRS. E. PATTERSON.

LOS ANGELES, Cal., April 1, 1886.

D. W. DAWSON: *Dear Sir:*—I am happy to inform you that I am entirely relieved of rheumatism, thanks to your valuable Magnetic treatment. I have been previously troubled with the dreaded disease; have been laid up for a month at a time; by the aid of crutches I managed to get to your office, and after three treatments I feel entirely relieved, for which I am thankful to you and your wonderful treatment.

Choice Property Given Away!

Homes for the Million!

NO GAME OF CHANCE: NO LOTTERY. EVERY MAN SEES WHAT HE BUYS and buys what he wants; and, if not then satisfied, a beautiful lot will be given him if he desires to build a home.

The Sherman Tract

Is Located on the South Side of Pico Street, near the City Limits;

Occupies a commanding elevation, which overlooks the surrounding country in every direction; fronts the celebrated Electric Motor Railway on the north, and on the east Magnolia avenue, a new street just being opened from Pico to Washington. Among the many choice locations occupying the elevated ridge that stretches from Seventh southwesterly to Adams, there is none more desirable than this. The phenomenal growth of the city in its "march to the sea" will soon cover this entire area; and, being within ten minutes' ride of the Postoffice by lightning motor, soon to be running, every lot in this tract must double in value within a few months.

The Tract is Subdivided into 108 Large Lots,

Averaging 50 by 150 feet, with alleys, all having desirable fronts and mostly covered with bearing fruits. The prices have been fixed about 25 per cent below other property of equal value, in order to close the sales within thirty days. Prices range from $295 to $525 per lot.

Eight Average Lots will be Donated

To persons desiring to build. Terms, one-fifth cash, balance in four equal quarterly installments. Sales will be private and commence on the Tract, NEXT MONDAY, NOVEMBER 1, 1886, at 10 o'clock A. M., and continue each day at that hour until completed. No sales will be consummated until that day, but selections of lots may be made in advance on application.

THE OFFICE OF THE OWNER IS WITH THE AGENTS, BYRAM, FRANCISCO & CASTERLINE, **No. 114 West First Street, Nadeau Block,** Los Angeles, where the public generally are invited to call and examine maps, make selections, etc.

FREE CARRIAGES leave this office for the tract each day at 9:30 A. M. and 3 P. M. o27 1w

Methodist Conference.

The 17th session of the Los Angeles Conference of the M. E. Church South, met at the Los Nietos church Wednesday, Oct. 26, 1886, at 9 o'clock A. M., Bishop J. C. Keener presiding.

After religious services and appropriate remarks by the Bishop, the roll was called, when the following answered present:

Revs. M. Adam, E. C. Knott, J. W. Allen, J. M. Lengston, R. J. Allen, J. E. Millen, R. W. Bailey, Wm. Moores, T. R. Curtis, J. E. McCann, P. O. Clayton, Geo. T. Nichols, J. S. Chapman, R. Pratt, Edgar Dunbar, W. B. Stradley, C. W. Harris, John Wood, J. B. Johnson.

Lay delegates—V. Y. Jenkins, L. A. Dillard.

Rev. W. B. Stradley was elected Secretary, when Revs. J. C. Keener, Jr., W. T. Burk, —. Smithey, A. S. Scott, were introduced to the conference and invited to seats within the conference bar. Reports were then read from the publishing house at Nashville, Tenn., in which all the interests of the church were said to be in a most flourishing condition. L. T. Smithey was reported transferred to this conference from the Montana conference. W. W. Welch was transferred to the Denver conference at his own request.

Announcements for preaching: At 3 P. M., by L. P. Smithey, and 7 P. M. by C. C. Wright.

Second day's session was opened with religious services conducted by Rev. Wm. Moores, Bishop J. C. Keener presiding.

W. T. Burk, of Mexican Border Mission conference, of Texas, and A. S. Scott, of Little Rock conference were transferred to this conference. The regular minute business of the conference was then taken in regular order. Reports were read from the various churches by the pastors thereof, showing a decided advance all along the line. This has been perhaps the most prosperous year of the conference.

At different times during the day the Bishop took occasion to address the conference in the most emphatic manner, greatly to the edification of all present. The Bishop seems to be a man of business, looking into and after all the interests of the church. The business of the conference will be completed this week, when the pastors will be assigned their several fields of labor for next year. Dr. C. B. Riddick, formerly of this place, but now of San Francisco, represented the interests of the Pacific Methodist, published in San Francisco.

Local News Notes.

McPherson Brothers, of Orange, now employ eighty men in the care and packing of raisins.

Stephen McGovern was arrested at 2:15 P. M. yesterday on San Fernando street for attempting to vote illegally.

A man with his face very much cut came out of Congress Hall, last night at 11:30, but was too drunk to explain how he had been assaulted.

A child was reported to have been severely burned at the Catholic cemetery yesterday afternoon, whilst some people were decorating a grave.

Manuel Lopez last night tried to hit another man with a slung shot, wrapped up in a piece of cloth, on Upper Main street, and was locked up by Officer Dalton.

W. P. Reynolds, the surveyor, fell down the stairs at No. 45½ Spring street, which were as dark as Erebus, last night at 11 o'clock and hurt himself considerably.

The new locomotive for the L. A. & S. G. V. R. R. was placed on the track yesterday and worked to a charm. It is a powerful machine, being both powerful and swift.

Officer C. H. Haskins arrested L. A. Asavedo and Julius Roderich yesterday, the former for buying a vote and the latter for selling it. Both were released on depositing $25 cash bail apiece.

Nine tramps were found sleeping in box cars early yesterday morning on San Fernando street by officers Houston, Little and Roberts, and locked up. They will be tried by the Mayor this afternoon.

V. A. Fitch, of 412 Aliso street, saw S. E. Davis walking out of his house yesterday evening at 6:30 with a bundle of clothes. Fitch took the burglar to the city jail, where he was locked up.

The bricks are now on the ground for the San Fernando hotel, 125x140 feet; the concrete foundation is laid, the walls will rise this week and in a short time will be opened to tourists and persons in search of health.

The downpour of rain at San Fernando on Saturday night of three quarters of an inch caught thousands of sacks of grain lying out of doors, but the timely breeze and sunshine of Sunday happily preserved the grain from all harm.

Dr. Reed yesterday at the French hospital amputated the arm of Victor Molle, the man who was so badly injured on the corner of Los Angeles and San Pedro streets on Monday afternoon by falling from his wood wagon while his horses were running away.

Jose Olivas was arrested yesterday on the charge of having purchased the vote of Christoval Ayala for the sum of $5. The latter was also locked up on the charge of selling his vote. The crime is a misdemeanor, and is triable under the United States laws.

Charges have been preferred by Prienis, a discharged fireman of the hook and ladder company, against Foreman F. H. Steele, complaining that he made him pay $10 per month to be retained. The Board of Fire Commissioners will investigate this matter next Monday.

Doctor W. E. Reed, assisted by Doctors De Szigethy and Utley, yesterday amputated the arm of Victor Molle, who was so badly injured by being run over by a wagon on Monday. The sufferer bore the operation very well and will probably recover his usefulness in a short time.

H. B. Benedict, father of Officer Benedict, fell from a haystack sixteen feet high on Monday evening, at his residence, Boyle Heights, and was badly hurt. The old gentleman is 78 years of age, and it is feared that the shock of the fall may prove too much for him.

Hancock M. Johnston, whilst riding in the stage between Perris and San Jacinto, San Diego county, last Sunday, was pitched from the seat as he was lighting a cigarrette, falling on his left shoulder, which was broken. He was brought yesterday to his home in East Los Angeles and is doing well.

The necessity for more voting precincts in this city was very strikingly shown yesterday by the impossibility of polling the vote of the people during the hours allowed by law. At least 100 voters yesterday were deprived of the privilege of voting in consequence of the impossibility of the clerks to record their votes in the Third precinct.

The HERALD acknowledges the receipt of an invitation to the social hop of the Ivy Social Club, of Santa Monica, at the Pavilion on Friday evening, November 5, 1886. Grand march at 8:30. The committee on invitation, Messrs. Waller, Dunn and Hammond, will make the occasion pleasant and memorable.

In the November "Overland Monthly" S. N. Sheridan begins a serial entitled, "In the Sleepy Hollow Country." Mr. Sheridan who is well known in Los Angeles, is identified with journalism, having formerly occupied the position of local editor on the Ventura Press, and being now reporter of the Los Angeles Tribune. Mr. Sheridan is a writer of merit.

The handsome advertisement of H. J. Woollacott appears in another column. He is now the agent of the famous Deutz & Geldermann Goldlack Champagne, which has just been introduced into this market. In regard to the wine trade in Los Angeles, Mr. Woollacott states that seven years ago he sold fifty barrels of foreign wine to one barrel of home-made wine, but now he sells fifty barrels of home-made wine to one barrel of foreign wine. Such change is due to good advertising and improved wine.

Ontario.

EDITOR HERALD:—Business in our little town has been looking up the past week or two, and present indications are that our merchants will do a much larger trade than ever before, during the coming fall and winter months.

A new crockery and grocery store will be opened the coming week, and no doubt the enterprising proprietor, Mr. Smith, will control a fair share of business.

Mr. Hausler will also open in a few days a hay and feed store, a want which we are pleased to see supplied.

Mr. Steinbeck opens to-day a new meat-market, and in so doing establishes competition in that line of trade.

The sounds of the builders are ringing on every hand; in fact, it is not possible to get a building put up at once, as the contractors all have jobs ahead which require more or less time to complete. The large addition of twenty-four sleeping apartments to the Ontario Hotel, will be begun Monday. This extension has been required for some time—a fact which speaks for itself how great the increase of traffic is at this point over last year, at which time rooms were plentiful. The addition, when completed, will make the house one of the pleasantest and most comfortable to be found in this section of the country.

We have been favored this week with a visit from Mr. H. L. Macneil, of your city, President of the Ontario Land Co., Col. Picket, and Mr. and Mrs. Stamm, of Pasadena. The Colonel and Mr. Stamm are also members of the company. All expressed amazement at the rapid advancement of our colony and bespeak for it a prosperous future. These people are ever welcome to Ontario, and we hope for another visit at no distant day.

In the way of social entertainment, our local talent recently presented to the people an evening's enjoyment. First was the "Roses' Fete," an idea originating with, and the words composed by our townslady, Miss Freeman, nine young ladies and the author taking part, each representing a certain kind of flower, all paying honor to their queen, the rose, taken by Miss Truman. The second part was the pleasing little drama, "Above the Clouds," those taking part acquitting themselves very creditably; the whole affording a pleasant evening to a house where standing room was at a premium—and realizing a nice little sum for the benefit of the public library. This library was yesterday the recipient of a very handsome donation from the Ontario Land Co. in the form of the complete works of Dickens, Thackeray, Scott and other celebrated novelists, as well as several volumes of a miscellaneous character. The books are neatly bound in alligator and are handsome as well as serviceable. The purchase was made by Mr. Frankish while in Chicago recently, made on behalf of the company, and he certainly deserves great credit for his selection, and the company many thanks for their liberality.

Found Drowned.

Yesterday at 4 o'clock in the afternoon the body of a man was found floating in the sea near the San Pedro lumber yard at San Pedro. Boatmen secured it and it was anchored alongside of a schooner to await the coming of the Coroner. The body is that of a man apparently 35 to 40 years of age, very well dressed and evidently a gentleman. The identity of the corpse could not be established, as the clothes were searched and the man is entirely unknown at San Pedro.

Consider This.

The great success of the Howes Tract is owing, first, to its charming location; second, to the splendid improvements now on the tract and those being energetically pushed forward. Third, the price, $190 per lot, is not much more than one-quarter that charged for like property around it. And fourth, the fact that the Southern California Land Company (Baker Block) is the only association that has built houses on its tracts and carried out to the letter the improvements promised at time of sale.

Attention, Railroad Men.

"I suffered more than a year with indigestion; was very bilious; had dumb chills, followed by fevers, which prostrated me. I took Simmons Liver Regulator, and am satisfied that it is all that it is recommended for indigestion and bilious complaints, for mine was certainly a stubborn case. Many of my friends speak of it, and they all agree that it possesses all the virtues claimed for it.—A. H. Hightower, Conductor C. R. R., Georgia.

Business Arguments.

Perfect title, pure water, charming location and the fact that the Howes tract is in the direct line of the city's progress, these unite to cause its very rapid sale. The deeds for the property are held by Mr. Howes for every subscriber, and the Los Angeles National Bank is the depository for all money received. The Southern California Land Company comes to the fore with its beautiful and costly improvements and the people respond from early morning until 9 o'clock at night.

Maple Avenue Tract.

At Seventh and Main streets, Los Angeles, being in the center of the city, and five minutes' ride of First and Main streets, by the double track car line. In the immediate vicinity are the residences of many of our representative and substantial citizens. Business improvements are being extended along Main street, and in no portion of the city are values more rapidly enhancing than in this direction. Property on Main street and one block from the Maple avenue tract is selling at $150 to $200 per front foot. The entire property is level; each block outlined separately; all streets indicated, and each subdivision numbered. To get there, take Main Street Car Line to Seventh street, where representatives of the auctioneers will be found on the grounds to answer all inquiries. The property is to be sold at auction Friday next at 12 o'clock, at salesroom, No. 20 West First street, under the auspices of the Los Angeles Land Bureau, with Easton & Eldridge, auctioneers.

The People are Satisfied.

Of the many newspaper promises, (with the exception of the Ellis Tract, which is managed by a reliable gentleman,) the only buildings and improvements really made on any tract have been placed by the Southern California Land Co., Baker Block. These are on the Child's, Urmston, City Center and Williamson tracts. And now the same company gives a valuation of eleven thousand, three hundred dollars for the nine villa residences on the Howes lots. Comment—170 already sold and the maps only out on yesterday.

The Sherman Tract a Grand Success.

Yesterday morning, November 1st, without flourish of trumpets, in a quiet private way, the Sherman Tract, on Pico street, was put on the market. To-day, November 2d, thirty-one of the 108 lots have been sold and several nice residences are under contract to be built immediately. The reasons for this success are these: First—The lots are as nearly perfect as any spot of earth can be, and consequently please every one who sees them. Second—The prices are so low that no other property in the market compares favorably with it. Lots which were bought yesterday for $525 are to-day worth $750. Several parties who bought lots have already been offered $100 advance. The lots which now remain unsold are as desirable in every respect as those sold and may be had this week at old prices. Office, 114 First street, Nadeau Block.

REAL ESTATE.

Worth Reading.

A Splendid Piece of Property Placed on the Market.

The Southern California Land Company Again to the Fore.

The Howes Tract on Jefferson street, including the handsome home residence and charming grounds of F. C. Howes, Esq., Cashier of the Los Angeles National Bank, to be subdivided—375 large lots (one-fifth of an acre each) with nine beautiful villa residences, including the large cottage of ten rooms of Mr. Howes; graded streets, etc., to be sold on the Homestead plan at $190 per lot, in payments of $10 monthly without interest; with first payment of $30.

The great success of the Southern California Land Company, (Baker Block), with the CHILDS TRACT, URMSTON TRACT, CITY CENTER TRACT, WILLIAMSON TRACT, ELEVENTH STREET BLOCK and COLUMBIA COLONY has been owing to the wonderfully low rates at which this popular company has placed first-class, well located property before the public.

It is refreshing to note in the midst of the boom in real estate, that one reliable firm not only gives to the people homestead lots at about one-third the price charged by others, but also performs all its promises to the letter in the building of houses, opening out of streets, putting up electric lights and extending the improvements of our city to its farthest legitimate bounds.

The maps of the Howes Tract will not be ready for some days; but in the meantime all will be bustle and activity on this beautiful property; surveyors will be laying off the streets and avenues, builders will be placing houses and pushing forward at once all the improvements promised, and the Tract, now almost all covered with vines, orange trees and splendid foliage, will put on a metropolitan look and keep up with its beautiful surroundings of costly buildings and cottage residences.

The Howes Tract fronts on Jefferson street, west of Vermont avenue. The location is a very popular one, in the direct line of the city's rapid growth, and will soon be reached by lines of street railroad and the Motor Road on the west.

It was not intended to open the books for this fine property until the fifth of November, but the fact that it was to be placed on the market having become known, an instant demand sprang up, and names are coming in so rapidly that the sales may be all made before even the maps, plans, etc., are ready for the public. The large salesroom of the SOUTHERN CALIFORNIA LAND COMPANY, 244 North Main street (Baker Block), is filled every evening with subscribers until a late hour.

$190 per lot is not one-third the price of outlying lots in Pasadena or the rocky cañons around it, and not one-fourth the rate of the farthest subdivisions of unmarketable tracts in East Los Angeles.

MISCELLANEOUS.

At the People's Store

Popular Goods at Popular Prices

Will be Found in Greater Variety, in Larger Quantity and Less in Price Than Any Similar Establishment in Town.

Time changes many things, and amongst others it has changed the modus operandi or interior workings of the PEOPLE'S STORE. We are buying our goods from the manufacturer and selling them to retailers as well as the retail trade. Heretofore we bought from the jobber. Now we are jobbers and sell to the retailer. There was a time when the manufacturer would not sell to a retailer; but since retail establishments have established a retail trade of $6,000,000 a year, they use more goods than nine-tenths of the jobbing trade. We buy more goods and sell more over our counters than two thirds of the jobbers in our line in San Francisco. They sell a number of dealers in this town, and make a profit on them. How can it be said that we have competition?

We desire to call your attention to our DOMESTIC DEPARTMENT. We sell our MUSLINS, SHEETINGS, CALICOS and CANTON FLANNELS at the very lowest quotations. We also make a further reduction in price where a bolt is purchased. We have no baits in these lines. We sell good, sterling goods lower than anyone else can afford to, because we do not aim to make more than enough to cover expense of freight and cost of sale on staples. We have WHITE MUSLINS as low as 18 yards for $1. Of course we do not claim them to be good. We have yard-wide MUSLIN, as good, if not better than Fruit-Lonsdale or White Rock, and we sell it 12 yards for $1.

We sell you COTTON CRASH for 4c. a yard, and a very nice COTTON TOWEL for 75c. a dozen. We have elegant values in TABLE LINENS, NAPKINS and TOWELS. Our regular prices on these goods are REAL BARGAINS. Never have we been in a position to sell LINEN GOODS at the prices we now offer them. Think of a retail store carrying 1000 dozen towels! There are very few jobbing houses that carry that much stock.

We have NINETY-SIX TABLE COVERS OF GERMAN LINEN, in colors of blue and gold, green and gold, green and red, etc., two yards square, at $1.50. Never before were these goods sold under $2.75.

CURTAIN NETS.—Here we are head and shoulders above anyone. Our 25c. quality is better than anybody's 40c. goods, because it's better than we ever sold at 40c., and we sold more net than all other houses combined. Our 40c. grade is a beauty—sells at sight. Can't duplicate it for 75c., and you get a CORNICE POLE with every 6 yards gratis. We have a space 40 feet long four pieces high covered with curtain net, no two pieces alike.

SPRING ROLLER WINDOW SHADES OF BEST HOLLAND, with fixtures complete for hanging, 50c. Dado shades seven feet long, all complete, with the latest and prettiest borders, 98c. Six feet long, 75c. Our curtain stock is very extensive.

IN FLANNELS we have the LARGEST, BEST and CHEAPEST stock we have handled since we've been in business. We made up our mind to have the best values that could be obtained in the market. The sample pieces sent to us alone amounted to over $1000. All wool red and blue flannels, 25c. White Shaker flannels, 12½c.

We will close our notice of this department with a reference to our BLANKET STOCK. We say it with a feeling of pleasure that we have the bull by the horns. We sell blankets at prices that others paid for them. The market has advanced, but we have not. Our $1.85 grey blanket is better than last year's $2.50. Our $2.25 and $2.85 greys are little darlings. Patrons go out to look after seeing these, but every one comes back within ten minutes. No! We have the full swing of the blanket trade in Los Angeles. No traveler for blankets has up to this date offered to sell us blankets by the bale at the prices we sell them to our trade over the counter. We start our White Blankets now at $1.25. [We had a quantity we sold at 98c. We will have them in a few days again in both grey and white.] And we go up as high as $13.
